KeyMacro is a quick launch application that changes the user interface to a Mac version of the Windows application "Shortcut". Install KeyMacro and it will make a shortcut on your desktop to launch your application. You can also add any program to your Quick Launch Bar. KeyMacro works the same way as Apple's own LaunchBar, although the application is not associated with Apple. It uses the same keyboard shortcut method as LaunchBar, and launches the same applications, which is why KeyMacro is usually more accurate than LaunchBar.
